Small-Ball®
PITCHING MACHINE

The toughest thing to do in sport is hit a round ball with a round bat. Now try it with a bat and ball half the size.

For your convenience, balls can easily be picked up using the plexi extension tube.

It is designed to:

- Teach the hitter to track the ball from the release point to the impact zone.
- Increase the hitter's mental concentration by teaching to hit a small object with a small bat.
- Help the hitter improve depth perception by keeping his or her head still and eyes level.
- Teach the fundamentals of hitting while removing the fear factor.
- Allow players to practice hitting indoors safely and in a limited space.
- Allow players to practice by themselves.
- Allow players to practice hitting without a batting cage.
